***Third International Symposium on Advanced Ceramics and  
Technology for Sustainable Energy Applications***

**Oct. 30 - Nov. 2, 2011**

**Howard Beach Resort Kenting Hengchun Town, Pingtung, Taiwan**

Based on the continuous great success of the 2nd ACTSEA held in 2009, we are pleased to invite you to attend the 3rd ACTSEA. The purpose of this series of symposium is to provide an international scientific forum for discussion and exchange of ideas on the state-of-the-art in processing and properties and up-to-date research and development of advanced ceramics and technology for renewable and sustainable energy as well as energy efficient applications.

The participants from industries, universities, and research laboratories will discuss recent R&D advances, field applications, and current and future challenges for creating ceramics with unique properties as well as for bringing these ceramics to the marketplace.

The symposium is officially endorsed by - The World Academy of Ceramics (WAC), Ceramic Society of Japan, American Ceramic Society, Chinese Society of Material Science of Taiwan, Taiwanese Ceramic Society

More information about the symposium can be found on the web site:
