BLUESTONE
GLOBAL TECH

Redefining Everything

ABOUT BLUESTONE GLOBAL TECH

The BGT Vision and Mission

Bluestone Global Tech (BGT) is dedicated to the development of graphene technology that utilizes this “wonder material” to enhance our lives. BGT has pioneered the mass production of large-area, high-quality graphene rapidly achieving the first milestone required for the commercialization of graphene-enhanced applications.

Global Operations

Headquartered in Wappingers Falls, NY (USA), BGT currently also has branches in Taiwan and Manchester, UK. Our global reach allows us to offer dedicated, regional support to our international partners and clients.

Is Bluestone Global Tech Right For You?

YOU SOLVE PROBLEMS.

Do you approach challenges head-on? Our business is based on creating solutions for our customers. No matter your role in BGT, we encourage all of our employees to take part in REDEFINING EVERYTHING™.

YOU ARE A COMMUNICATOR.

We are a small team that is growing fast. Sometimes we work independently, sometimes in small groups. We value multiple perspectives. We prize idea sharing and want to hear what you have to say.

YOU SEEK CONSTANT IMPROVEMENT.

Do you love to learn about what you don't know? Do you love to teach what you do know to others? We believe that there is always room to improve and we are on a constant mission to become better.

Work With Us

Tell us what you would like to do. Introduce yourself, send us a piece of work that you're proud of and if we like what we see, we'll get in touch with you. Contact us at kchang@bluestonegt.com.
